# Enrollment during Last Semester

## Things to remember:

Check your DegreeWorks for any missing documentation or requirements.

Reactivate degree petition via the OAG if necessary.

All students must be enrolled in a minimum of three hours during their last semester. Enrolling for one hour of thesis is allowed only during last semester.

Students who completed all requirements in the previous semester and don't need to enroll during their final semester may submit an Enrollment Waiver Form.

# Enrollment Waivers

## What it is:

- A provision which allows Thesis and Non-thesis students to complete their requirements without having to enroll
- PhD and MS Thesis students: must complete requirements by the close of registration for the semester in which they are applying the waiver/intend to graduate
- Must be enrolled in the previous semester (summer included)
- Can be used after 1 hr enrollment.
- Waivers for MS and PhD thesis students will **ONLY** be processed once the thesis is submitted, defense completed, and all forms received.

## What it is not:

- It is not a Tuition Waiver form
- It is not a form to excuse not enrolling for a semester (including summer). Students actively working on their thesis/dissertation should be enrolled properly each semester.

Graduate  
Education

Waiver of Enrollment

**IMPORTANT:** This enrollment waiver does not automatically reactivate your degree petition. You must meet the Registrar's normal deadlines to petition to graduate or reactivate your degree petition for this term. If you are an F-1 or J-1 student visa holder, submitting this form will result in OIE shortening your I-20/DS-2019 form to align with the term of your last enrollment. Before submitting this form, you must consult with OIE to ensure you are fully aware of the impact this will have on your immigration record.

GTID #: \_\_\_\_\_

Name: \_\_\_\_\_  
Last First Middle

School: \_\_\_\_\_ Signature: \_\_\_\_\_

I request a waiver of the Institute requirement that a graduate student be registered during the semester in which he/she/they graduates (enrollment waiver).

I have completed all degree requirements and will no longer require any of the Institute's facilities or faculty time to complete the following (choose one):

☐ MS without thesis (course work only)  
☐ MS with thesis option  
☐ Ph.D. degree.

I propose graduating during the \_\_\_\_\_ (semester) of 20\_\_\_\_ (year). I am/was registered in the semester preceding my proposed graduation semester, the semester for which I am requesting a waiver. This includes summer semesters. [Exception: non-thesis master's students who have completed all coursework prior to the graduation semester need not have been enrolled the prior term.]

I understand that I may apply for this waiver only once. If a thesis is required for my degree and I do not submit my final approved thesis to the Graduate Education office before the end of the registration period for the above specified semester, I may have to register for at least 3 hours.

**Thesis students must complete the following at the same time as this form:**

- Final approved thesis uploaded to the ETD/Vireo web site
- Submit Signed Certificate of Thesis Approval and any other required document to Office of Graduate Education.
- Oral presentation and all corrections must be completed before the submission.

# One Hour Rule & Reduced Course Loads

- *Students may enroll in 1 credit hour **ONE TIME PER DEGREE** in the last semester of graduation.*
- *Students who have enrolled for one hour only more than one time per degree must enroll for the normal minimum of three hours in the semester of graduation.*
- *Please note that these exceptions do not alter the credit-hour load a student must take to meet financial aid, fellowship or assistantship eligibility, etc .*
- *Enrollment Waivers do not activate degree petitions. Students must reapply or have an active OAG.*
- *If students are F-1 or J-1 student visa holder, submitting the enrollment waiver form will result in OIE shortening their I-20/DS-2019 form to align with the term of their last enrollment. Before submitting this form, students must consult with OIE to ensure they are fully aware of the impact this will have on their immigration record.*
- *Students intending to enroll in the Student Health Insurance Plan must be enrolled in **a minimum of four credit hours** to participate in the plan.*
- *Students should address any questions or concerns regarding enrollment during the last semester to the Graduate Education Thesis Office before the end of registration; no additions or changes in registration are allowed after the close of registration.*

# Copyright and your Thesis

- Using copyrighted work
- Copyright in your own work

# What is Copyright?

- Literally, the right to copy (or share, disseminate, etc)
- Granted to: Original creative work (of a human) fixed in a tangible means of expression (digital or physical).

# Using copyrighted work

- The holder of the copyright in any given work can grant permissions, for example to re-use or re-distribute the work.
- Most common question: “Do I have to get permission to re-use \_\_\_\_\_ in my thesis?”
- The common answer: IT DEPENDS

# Do I need permission to re-use?

YOU DON'T NEED PERMISSION FOR  
*(BUT you need to CITE!)*

- Quoting someone else's words
- Paraphrasing someone else's writing
- Summarizing someone else's work
- Referring to someone else's work

YOU MAY NEED PERMISSION FOR  
THINGS LIKE:

- Images
- Diagrams
- Photographs
- Code
- Songs/Lyrics
- Long passages

# Fair Use

**Section 107 of the Copyright Act:** The fair use of a copyrighted work...for the purposes such as criticism, comment, news reporting, teaching...scholarship, or research is not an infringement of copyright. In determining whether the use made of a work in any particular case is a fair use the factors to be considered...include:

- **Purpose of re-use** (for example, use for scholarship favors fair use).
- **Nature of original work** (for example, if the work you're using is factual in nature rather than creative)
- **Amount of original re-used** (the less used, the stronger the case for fair use).
- **Effect of re-use** on original's market value (use of something that is sold in the marketplace is not a strong fair use case).

(For more information contact the Scholarly Communications Librarian at [etd@library.gatech.edu](mailto:etd@library.gatech.edu) or the Office of Legal Affairs at [asklegal@gatech.edu](mailto:asklegal@gatech.edu).)

# Fair Use

Some good resources to help evaluate whether a use is “fair use”

- <https://www.lib.umn.edu/copyright/fairthoughts>
- <https://copyright.columbia.edu/basics/fair-use/fair-use-checklist.html>
- <http://librarycopyright.net/resources/fairuse/toc.php>

# Using my own copyrighted work

“Can I use the journal article I wrote as a chapter in my thesis?”

- If you signed away your copyright when you published, then check the agreement you signed with your publisher.
- If the agreement doesn't specifically mention those rights, contact the publisher to obtain permission.

# Copyright in the Finished Thesis/Dissertation

How do I get copyright for my thesis/dissertation?

- You automatically have copyright for life plus 70 years after your death.
- You have all of the rights of dissemination or transfer. (Georgia Tech only gets the license to post a copy in SMARTech — it doesn't hold any other permissions.)
- You don't have to register your thesis, but you get more legal protection if you do. (Register at the [Library of Congress registration site](#).)

Your thesis will go into [SMARTech](#), where anyone can discover and access your document. Other authors must contact you first for re-use permissions — unless you use Creative Commons Licensing.

# Creative Commons Licensing

- Creative Commons licenses help creators (licensors) retain copyright while allowing others to copy, distribute, and otherwise reuse their work.
- You can specify non-commercial reuses only.
- Licenses work around the world and last as long as applicable copyright lasts.

Find more information at <https://creativecommons.org/licenses>.

# What else can I do with my thesis?

Remember, you own the copyright to your thesis! You can disseminate it however you want!

- Submit to any thesis database!
- Print a copy!
- Give it to your friends!
- Post it on a website! Post it on a lot of websites!
- Link to it on social media!

# Submitting Datasets with your Thesis or Dissertation

## Submitting your data and code will:

- Ensure reproducibility of your work
- Demonstrate your value as a top notch researcher
- Allow others to build upon your work
- Comply with applicable federal funding agency requirements (if any)
- Enable you to find the materials later in your career
- Give your faculty advisor peace of mind that they can find the materials after you've graduated

# How to Submit

## **Did your data involve human subjects or other sensitive materials?**

If yes, do not deposit, the library CANNOT accept sensitive/restricted data.

## **Are your data files larger than 512MB?**

- If you answered “no” : submit your dataset, code, scripts, and other supplemental materials via Vireo, right along with your thesis or dissertation.
- If “yes” contact [repository@library.gatech.edu](mailto:repository@library.gatech.edu), for more guidance:

# Documentation of Datasets

All datasets, no matter how you submit them, should be accompanied by additional documentation.

If you don't already have materials describing your dataset, use [our template](#) to create a "README.txt" file
